INLAY

W O N D E R F U L H A R M O N Y

Quality and Design, wonderful harmony of the surfaces as the result of technically advanced solutions and process precision, all that is INLAY.

INLAY is the new line for the future, aimed at young people and straight to the practical mentality and taste. Aluminium inserts beautifully playing with the warmth and pleasure of the solid wood give to the INLAY doors a hint of technicality in addition to the charme of the classic material.

Every product is singularly treated, aiming to give a peculiar look to wood and inishing.
This product is realized by using special inishes and materials coming from handcraft treatments; for this right reason it’s unmatched and original,
and any sort of “deformity” in itself at the time of purchase or later is not to be considered as such, but a conirmation of its uniqueness.
